## Industry's Best Performing Ultra-High Speed Scanner

### Unprecedented performance in ultra-high speed laser scanning

#### Productivity and Accuracy

An innovative combination of advanced time-of-flight range measurement plus modern Waveform Digitizing (WFD) technology enables the compact Leica ScanStation P20 to achieve ultra-high scan speeds and low-noise performance at extended range (to 120 m). Together with high-accuracy angular measurements and survey-grade tilt compensation, Leica ScanStation P20 delivers unprecedented ultra-high speed scan data quality for as-built and scene surveys.

#### Scan up to 1 million points per second

Leica ScanStation P20 is the ideal instrument when very short time windows are available for capturing High-Definition Survey™ data or when ultra-high density, full dome scan data is needed for client deliverables.

#### Unmatched environmental capabilities

Developed and manufactured by Leica Geosystems, Leica ScanStation P20 lets users apply ultra-high speed scanning in operating temperatures ranging from -20° C to +50° C. Moreover, with an Ingress Protection rating of IP54 and an eye-safe laser rating, users can reap the benefits of ultra-high speed scanning for even more sites and projects.

#### "Check & Adjust" for added confidence

Leica ScanStation P20 is the first laser scanner to feature a valuable "Check & Adjust" capability. Instead of sending the instrument to a service center, users can electronically check the accuracy of their ScanStation P20 themselves and automatically adjust instrument parameters to ensure the highest level of performance.

## Product Specifications

General	
<b>Instrument type</b>	Compact, ultra-high speed pulsed laser scanner with survey grade accuracy, range and field-of-view; integrated camera and laser plummet
<b>User interface</b>	Onboard control, notebook or tablet PC, PDA
<b>Data storage</b>	Integrated solid-state drive (SSD) or external USB flash drive
<b>Camera</b>	Auto-adjusting, integrated high-resolution digital camera with zoom video

System Performance	
<b>Accuracy of single measurement</b>	3D Position Accuracy Linearity error Angular accuracy
	3 mm at 50 m; 6 mm at 100 m ≤ 1 mm 8" horizontal; 8" vertical
<b>Target acquisition*</b>	2 mm standard deviation up to 50 m
<b>Dual-axis compensator</b>	Selectable on/off, resolution 1", dynamic range +/- 5', accuracy 1.5"

Standard Accessories Included	
Scanner transport case	
Tribrach (Leica Geosystems Professional Series)	
4 x Internal batteries	
Battery charger / AC power cable, car adapter, daisy chain cable	
Data cable	
Height metre and distance holder for height metre	
1 year CCP Basic support contract	

Additional Accessories & Services	
B&W scan targets and target accessories	
Range of Customer Care Products (CCPs) that include Support, Hardware & Software maintenance and Extended warranty.	
External battery with charging station, AC power supply and power cable	
Professional charger for internal batteries	
AC power supply for scanner	
Tripod and tripod star	
Upside down mounting adapter	

Control Options	
Full colour touchscreen for onboard scan control.	
Remote control: Leica CS10/CS15 controller or any other remote desktop capable device, including iPad, iPhone and other Smartphones.
